

The radio station k-love is very important in my families life. Myself, the children, and my wife. We recieve family advice, prayer, guidance in every area and a chance to praise God much more often than we ever did before we came across it 4 years ago. I know that if we get those kind of blessing then so do all who listen and contribute. Take into concideration the lives that those people at K-love touch and change. They hit upon an idea to praise God through the radio, and it became vital to thousands. Thank you for keeping K-love on the air for us all.
